

fred-round_2026-10-10

The results page, trimmed so each fact shows once, in this order:

1. Weather
2. Packing (bottles grid + gels)
3. Why · hour by hour (gels drawn in the bars)
4. Ride totals (top card + Nutrition totals, merged)
5. Closet
6. Details (three explanations only)
7. Copy for troubleshooting

Save bar stays pinned at the bottom, with "Save as image" above it.

Removed: top card's six numbers (moved into Ride totals) · Bottles · start times · Gels per hour · the separate Gels list · Nutrition totals · From your rides · Details: Bottles by start time, Gel schedule, Numbers by hour, Session summary, Log this ride · the Closet temp line.

Final order, top to bottom

The image displays a mobile application interface for a triathlon, organized into a multi-column layout. The interface is divided into several sections, each with a title and a list of items or data points.

Final order · column 1

- 1 · Weather**
 - WEATHER**
 - 51° → 73°
Sunny · warming to 73° by 1:30
 - Feels like: 51° → 73°
 - WBGT: 49° → 68°
 - Wind: 7 mph ↻ · gusts 14
 - Humidity · dew: 58% · 41°

 - Not now** **Save to Journal**

Your order, top to bottom (read left column, then middle, then right): Weather · Packing · Why hour by hour · Ride totals · Closet · Details · Troubleshooting, with the save bar pinned at the bottom. From your rides is off this page. Wind, humidity and WBGT are example values.

Ride totals and the hour chart

Left: the top card now, and the new Ride totals card (per hour and total for carbs, sodium and water; caffeine and kcal underneath; Adjust and Copy). Right: the hour chart with one gel icon per gel in each bar's orange part (white = plain, brown with c = caffeine).
