How each kind reads

The kinds of facts fred can show, and the rules. Never advice, never a button that changes anything.

 Nudge wording

M

BOTTLE STRENGTH

On 3 of 4 similar rides with bottles above 7.5%, you marked stomach upset or sloshy.

CARBS PER HOUR

On 3 of 4 similar rides under 75 g carbs/hr, you marked faded.

FLUID

On 3 of 4 similar rides above 28 oz/hr, you marked sloshy or "too much".

FLUID (OTHER WAY)

On 3 of 4 similar rides under 20 oz/hr, you marked thirsty.

PRODUCT (FACT ONLY)

On 3 of 3 similar rides with Maurten Gel 100 CAF, you marked stomach upset.

CLOTHING

On 3 of 4 rides below 45°F in light gloves, you marked cold hands.

HEAT + HUMIDITY

On 3 of 4 similar rides in the hot band (dew point above 65°), you marked thirsty at 28 oz/hr.

WIND / RAIN

On 3 of 3 rainy rides below 55°F, you marked cold.

Rules

- Only after Crunch, only when it applies, at most 1 (the strongest)
- Facts from your own check-ins; no buttons, no "try" or "should"
- Similar rides = same effort, same weather band (cold · cool · mild · warm · hot), temp ±10°F, dew point ±8°F, rain vs dry
- Weather shown in every fact
- Speaks only at 3 of 4 or more (at least 3 rides)
- Never nudges toward less water; your floor is in Settings
-  hides it for this ride

Settings · your own fluid floor

You set the lowest (and highest) fluid fred will ever plan. fred never nudges toward less water.
